

**Do you love  
Long Island's  
coastal  
treasures ?**

# COASTAL STEWARD

---

## L O N G I S L A N D

**Coastal Steward Long Island's mission is dedicated to restoring and preserving Long Island's coastline through education, raising public awareness, and community action.**

**Our vision is that, by engaging with our local youth and communities, we foster a caring connection between Long Island residents and their shoreline, and create future generations of coastal stewards.**

# EDUCATION

*The Marine Center is a wonderful place for youth to have hands-on experience learning about our precious environment and understand how to become stewards for our ocean and marine life.*

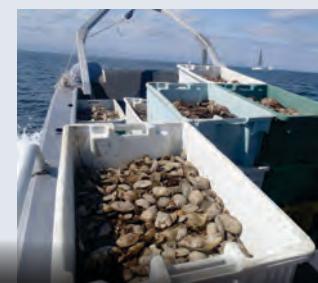

# PRESERVATION

*We have been leading cleanups for over 10 years to maintain our beautiful beaches for Long Islanders and visitors to enjoy for years to come.*

# RESTORATION

*We are motivated to regenerate Long Island's shellfish populations. Through a partnership with the Town of Brookhaven, we grow 80,000 oysters a year to seed the local harbor.*

## How you can make a difference

**Help us** get students out on field trips to the Center at Cedar Beach. You can sponsor a bus trip or connect us with your contact at a local school that could benefit from this program. Please email [info@coastalsteward.org](mailto:info@coastalsteward.org)

**Join us** as a volunteer at one of our scheduled cleanups or get your business or group to become a beach sponsor. Check out our beach cleanup page and calendar of events at [www.coastalsteward.org](http://www.coastalsteward.org)

**Participate** as a citizen scientist as we monitor the growth of juvenile oysters and release them at the end of summer. Sign up to volunteer at [www.coastalsteward.org](http://www.coastalsteward.org)

**If you would like to protect  
the beauty of Long Island's  
beaches and marine life,  
please consider a  
tax-deductible donation.**
